

## Axis-476 Continuity Tester

axis-476 Continuity Tester is a single station Continuity system and specially manufacturing for low pressure and High-Pressure testing system. Pneumatic System operating cycle minimum 1,00,00,000 cycles, user friendly operating system. High accuracy and repeatability sensors.

### Axis-476: FEATURES

- ✓ Pressure Measurement Input port and Output port
- ✓ Testing Pressure Range: (-1-0, 0-0.1, 0-1, 0-7, 0-10, 0-16) bar
- ✓ Mechanical or Electronic Regulator Range (-1 - 0, 0-1, 0-7, 0-10) bar. Above 10bar is customized.
- ✓ Up to 32 programs
- ✓ 4" Color Touch Display
- ✓ Auto Zero Calibration
- ✓ Data logging standard USB port
- ✓ Up to 60,000 data storage

#### TEST TYPE

- ✓ Unit: pa, mbar, psi, bar, kpa and customized.

#### COMMUNICATION

- ✓ Rs232 Communication data storage
- ✓ IO connector
- ✓ 10 inputs and 3 outputs with up to 5 programming bits
- ✓ Expandable download USB port
- ✓ Firmware updating port
- ✓ Options: Ethernet/IP, profinet, Printer and Scanner

#### SPECIFICATIONS

- ✓ Dimensions: (WxHxD) 230x300x400mm
- ✓ Weight: 13kg

#### POWER SUPPLY

- ✓ 230VAC/50Hz

#### TEMPERATURE

- ✓ Operating Temperature: 10°C - 45°C

#### AIR SUPPLY

- ✓ Clean, dry, non-corrosive gasses
- ✓ Test pressure: (-1-0, 0-1, 0-7, 0-10, 0-16) bar. Above 10 bar is customized

#### APPLICATIONS

- ✓ Medical applications
- ✓ Automotive
- ✓ Domestic application
- ✓ Electric and Electronic components
- ✓ Tubes
